

K-Love is the only music station I listen to. It gives me great peace and happiness when I listen to the music it plays. It is the only radio station that the whole family can listen to because of the positive and encouraging music it plays. The music gives me a calmness inside of me when I listen to it which is important to me when I am driving to and from work in the rush hour traffic. I live in San Diego and you must know how much traffic we have here. Please don't take the K-Love signal away from us because it truly lifts my spirits when I listen to this music station and there are no other stations like this anywhere. You should try listening to this station yourself so you can see what a truly remarkable music station this really is. Thank you for your time.
